PETITION TO RESTORE GREAT FALLS' HISTORIC WATER RIGHTS CLAIMS

We, the undersigned citizens of Great Falls, RESPECTFULLY REQUEST that the City Commission and the Montana Water Court RESTORE the CITY OF GREAT FALLS' water right claims, 41QJ 123408-00 (60 CFS), original 41QJ 123410-00 (74 CFS), and 41QJ 123411-00 (20 CFS), from the reduced volume of 20,140 acre-ft/yr to its historic level of 53,574 acre-ft/year. We believe that the "beneficial use" of the water since the time Paris Gibson appropriated WATER for the City in addition to consumptive uses has always been for recreation, fish habitat, scenic views and water banking for later consumptive use, etc.
